*Reasons for allowance*

1. This communication is in response to applicant's 04/14/2005 amendment after the Final in the application of Coggeshall for a "Contacting a computing device outside a local network " filed 03/06/2001. The proposed amendment to the claims and response have been entered and made of record. Claims 1-6, 12-20, 22-32 and 36-73 have been canceled per applicant's request, and claims 7-11, 21, 33-35 have been amended. The claims have been amended to better point out and more distinctly claim subject matter comprising the invention.

2 Claims 7-11, 21, 33-35 are allowable as evident by applicant's amendment (Claims are renumbered as 1-9 respectively)

3. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

4. The application has been amended as follows:

IN THE CLAIMS:

I. Delete the word "of" from lines 1 of the claims 7-11.

5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

6. The following is an examiner's statement of reasons for allowance: The instant application is deemed to be directed to a nonobvious improvement over the invention patented in closest prior arts of record. The improvement comprises the step of wherein it is determined that no address resolution response to the detected address resolution request is transmitted from a node in the first network other than the first node if at least a threshold period of time elapses after the address resolution request is detected/if the detected address resolution request is rebroadcast at least a threshold number of times without a response to the detected address resolution request being detected; whether in response to determining that no address resolution response to the detected address resolution request is transmitted from a node in the first network other than the first node,. Sending a gratuitous address resolution protocol request identifying the first node as the owner of the logical target address contained in the detected address resolution request; wherein adopting the target address contained by the first message as the address of the first node; including the target address contained by the first message in the second message as the source address of the second message, and receiving messages having as their target addresses the target address contained by the first message, as recited in the claims.

7. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue
